

HOW TO USE THIS GUIDE

1. Review technical bulletins and determine recommended system for your application (i.e., primers, topcoat, film thickness, etc.)
2. Add together the per sq. ft. cost of each component to arrive at the total system cost per sq. ft.

Example: IMPAX 33 primer (5 gal. unit) @ \$0.23/sq. ft.
 IMPAX 650 (5 gal. unit) @ \$0.50/sq. ft.
 \$0.73/sq. ft

Costs are based ON SUGGESTED USER PRICE and Haze Gray color. This guide is to be used for estimating purposes only. See price sheets for exact costs. Coverage and thicknesses are approximates.
